

## The Courier Guy Locker API docs

### Getting pickup points

**Endpoint:** <https://api.shiplogic.com/pickup-points?type=locker>

**Method:** GET

When fetching pickup points, there are a couple of filters that could be of use to get an appropriate locker or kiosk. In addition to the filters described below, you can also filter for either lockers or kiosks using the **types** parameter with a value of **locker** or **counter**, as in the example above.

### Pickup points close to a point

```
https://api.shiplogic.com/pickup-points?lat=-26.0048046&lng=27.9412084&order_closest=true
```

Use the **lat** and **lng** filters to find pickup points in a 20 km radius around the coordinates. You can optionally also add the **order\_closest** parameter to order the response by distance to the specified coordinates.

### Pickup points in a bounding box

```
https://api.shiplogic.com/pickup-points?min_lat=-26.07529882894088&max_lat=-25.967471024220487&min_lng=27.875394544865816&max_lng=28.01341029193613
```

Use the **min\_lat**, **min\_lng**, **max\_lat** and **max\_lng** query parameters to find pickup points in a bounding box. This is especially useful when viewing pickup points on an area of a map.

### Pickup points by name

```
https://api.shiplogic.com/pickup-points?search=kya%20sands
```

Use the **search** parameter to find pickup points with an address or name that matches the search term.

#### THE COURIER GUY SOUTH AFRICA (PTY) LTD

37 Malta Road, Cosmo Business Park,  
Malibongwe Drive, Kya Sands  
Postal: 532 Lanseria, 1748

**Tel:** 0861 203 203  
**Email:** [support@thecourierguy.co.za](mailto:support@thecourierguy.co.za)  
**Web:** [www.thecourierguy.co.za](http://www.thecourierguy.co.za)

Co. Registration No. 2023 / 172080 / 07. Co. VAT No. 4850317670

## Getting rates

**Endpoint:** <https://api.shiplogic.com/rates>

**Method:** GET

When getting rates for a pickup point shipment, use `collection_pickup_point_id` or `delivery_pickup_point_id` to specify the locker or kiosk's `pickup_point_id`. When specifying a pickup point ID, the corresponding `collection_address` or `delivery_address` should not be sent. In addition, it is necessary to send `collection_pickup_point_provider` and `delivery_pickup_point_provider` with a value of `tcg-locker` to ensure the request is processed correctly.

### Pickup point collection

When getting rates for a pickup point collection, it is not necessary to specify a specific pickup point ID since clients can drop off their parcels at any locker or kiosk. Use the generic locker ID `CG0000` or the generic kiosk ID `K0000` as the `collection_pickup_point`.

```
{
  "collection_pickup_point_id": "CG0000",
  "collection_pickup_point_provider": "tcg-locker",
  "delivery_address": {
    "company": "The Courier Guy - Johannesburg",
    "street_address": "37 Malta Road",
    "local_area": "Kya Sand",
    "code": "2163",
    "city": "City of Johannesburg Metropolitan Municipality",
    "zone": "Gauteng",
    "country": "ZA",
    "lat": -26.004805,
    "lng": 27.941208,
    "type": "business"
  },
  "parcels": [
    {
      "parcel_description": "",
      "submitted_length_cm": 40,
      "submitted_width_cm": 38,
      "submitted_height_cm": 5,
      "submitted_weight_kg": 2,
      "packaging": "Standard flyer"
    }
  ]
}
```

We would love to handle your package.

```
],  
"collection_min_date": "2025-08-01",  
"delivery_min_date": "2025-08-01"  
}
```

### Pickup point delivery

When getting rates for a pickup point delivery, the specific locker or kiosk's ID must be sent as the `delivery_pickup_point_id`.

```
{  
  "collection_address":  
  {  
    "company": "The Courier Guy - Johannesburg",  
    "street_address": "37 Malta Road",  
    "local_area": "Kya Sand",  
    "code": "2163",  
    "city": "City of Johannesburg Metropolitan Municipality",  
    "zone": "Gauteng",  
    "country": "ZA",  
    "lat": -26.004805,  
    "lng": 27.941208,  
    "type": "business"  
  },  
  "delivery_pickup_point_id": "CG341",  
  "delivery_pickup_point_provider": "tcg-locker",  
  "parcels":  
  [  
    {  
      "parcel_description": "",  
      "submitted_length_cm": 40,  
      "submitted_width_cm": 38,  
      "submitted_height_cm": 5,  
      "submitted_weight_kg": 2,  
      "packaging": "Standard flyer"  
    }  
  ],  
  "collection_min_date": "2025-08-01",  
  "delivery_min_date": "2025-08-01"  
}
```

We would love to handle your package.

### Pickup point to pickup point

When sending a parcel from one pickup point to another, use the generic locker ID or generic kiosk ID for the `collection_pickup_point_id`, and the specific locker or kiosk's ID for the `delivery_pickup_point_id`.

```
{
  "collection_pickup_point_id": "K0000",
  "collection_pickup_point_provider": "tcg-locker",
  "delivery_pickup_point_id": "CG341",
  "delivery_pickup_point_provider": "tcg-locker",
  "parcels": [
    {
      "parcel_description": "",
      "submitted_length_cm": 40,
      "submitted_width_cm": 38,
      "submitted_height_cm": 5,
      "submitted_weight_kg": 2,
      "packaging": "Standard flyer"
    }
  ],
  "collection_min_date": "2025-08-01",
  "delivery_min_date": "2025-08-01"
}
```

We would love to handle your package.

## Creating shipments

When creating a shipment, replace the `collection_address` or `delivery_address` with `collection_pickup_point_id` or `delivery_pickup_point_id` exactly as with the rates request. Note that the `collection_pickup_point_provider` and `delivery_pickup_point_provider` fields with a value of `tcg-locker` are still required.

### Pickup point collection

When creating a shipment for a pickup point collection, it is not necessary to specify a specific pickup point ID since clients can drop off their parcels at any locker or kiosk. Use the generic locker ID `CG0000` or the generic kiosk ID `K0000` as the `collection_pickup_point`.

**NOTE:** When creating a shipment for a pickup point collection, do not send a custom tracking reference (`custom_tracking_reference`). One will be assigned to shipment.

```
{
  "collection_pickup_point_id": "CG0000",
  "collection_pickup_point_provider": "tcg-locker",
  "collection_contact": {
    "name": "John Doe",
    "mobile_number": "0741234567",
    "email": "example@email.com"
  },
  "delivery_address": {
    "company": "The Courier Guy - Johannesburg",
    "street_address": "37 Malta Road",
    "local_area": "Kya Sand",
    "code": "2163",
    "city": "City of Johannesburg Metropolitan Municipality",
    "zone": "Gauteng",
    "country": "ZA",
    "lat": -26.004805,
    "lng": 27.941208,
    "type": "business"
  },
  "delivery_contact": {
    "name": "Jane Doe",
    "mobile_number": "0831234567",
    "email": "example@email.com"
  },
}
```

We would love to handle your package.

```

"parcels":
[
  {
    "parcel_description": "",
    "submitted_length_cm": 40,
    "submitted_width_cm": 38,
    "submitted_height_cm": 5,
    "submitted_weight_kg": 2,
    "packaging": "Standard flyer"
  }
],
"special_instructions_delivery": "This is a test shipment",
"collection_min_date": "2025-08-01T00:00:00.000Z",
"collection_after": "08:00",

"delivery_before": "17:00",
"customer_reference": "ORDERN0123",
"service_level_code": "L2DM - ECO"
}

```

### Pickup point delivery

When creating a shipment for a pickup point delivery, the specific locker or kiosk's ID must be sent as the `delivery_pickup_point_id`.

```

{
  "collection_address":
  {
    "company": "The Courier Guy - Johannesburg",
    "street_address": "37 Malta Road",
    "local_area": "Kya Sand",
    "code": "2163",
    "city": "City of Johannesburg Metropolitan Municipality",
    "zone": "Gauteng",
    "country": "ZA",
    "lat": -26.004805,
    "lng": 27.941208,
    "type": "business"
  },
  "collection_contact":

```

We would love to handle your package.

```

{
  "name": "John Doe",
  "mobile_number": "0741234567",
  "email": "example@email.com"
},
"delivery_pickup_point_id": "CG341",
"delivery_pickup_point_provider": "tcg-locker",
"delivery_contact":
{
  "name": "Jane Doe",
  "mobile_number": "0831234567",
  "email": "example@email.com"
},
"parcels":
[
  {
    "parcel_description": "",
    "submitted_length_cm": 40,
    "submitted_width_cm": 38,
    "submitted_height_cm": 5,
    "submitted_weight_kg": 2,
    "packaging": "Standard flyer"
  }
],
"special_instructions_collection": "This is a test shipment",
"collection_min_date": "2025-08-01T00:00:00.000Z",
"collection_after": "08:00",

"delivery_after": "10:00",
"delivery_before": "17:00",
"custom_tracking_reference": "",
"customer_reference": "ORDERN0123",
"service_level_code": "D2LXS - ECO"
}

```

### Pickup point to pickup point

When creating a shipment from one pickup point to another, use the generic locker ID or generic kiosk ID for the `collection_pickup_point_id`, and the specific locker or kiosk's ID for the `delivery_pickup_point_id`.

We would love to handle your package.

```

{
  "collection_pickup_point_id": "K0000",
  "collection_pickup_point_provider": "tcg-locker",
  "collection_contact":
  {
    "name": "John Doe",
    "mobile_number": "0741234567",
    "email": "example@email.com"
  },
  "delivery_pickup_point_id": "K120",
  "delivery_pickup_point_provider": "tcg-locker",
  "delivery_contact":
  {
    "name": "Jane Doe",
    "mobile_number": "0831234567",
    "email": "example@email.com"
  },
  "parcels":
  [
    {
      "parcel_description": "",
      "submitted_length_cm": 40,
      "submitted_width_cm": 38,
      "submitted_height_cm": 5,
      "submitted_weight_kg": 2,
      "packaging": "Standard flyer"
    }
  ],
  "collection_min_date": "2025-08-01T00:00:00.000Z",
  "collection_after": "08:00",
  "collection_before": "16:00",
  "delivery_min_date": "2025-08-01T00:00:00.000Z",
